

Regenerative Approach to Rotator Cuff Repair

Last Updated Wednesday, 26 July 2006

Please join our internationally-renowned panelists who together bring you this Web-based Science Forum on GRAFTJACKET® Regenerative Tissue Matrix and the science, mechanical testing, histology and clinical experience for rotator cuff tears in the shoulder. Broadcast LIVE to the Post Graduate Education Centre , City Hospital Campus, Nottingham University Hospitals, Nottingham, UK Friday, 8th of September at 4:00 pm UK Time (17:00 Central European Time)

The expert panel of surgeons and scientists will demonstrate how Wright's GRAFTJACKET® Regenerative Tissue Matrix - an "augmentation graft", not "interpositional graft" can be incorporated into the musculotendinous bone complex such that rotator cuff healing and fixation can be facilitated.

This Webcast is exclusively intended for surgeons in Europe, Middle East and Africa.
