

Triathlon MIS Total Knee Arthroplasty

The Triathlon® MIS

Total Knee Arthroplasty Procedure will be presented from St. Anthony's Hospital in Effingham, IL. Dr. Peter M. Bonutti and Dr. Kirby D. Hitt, who were both involved in the design of the new Triathlon® MIS Instruments, will lead this event. This live surgery will feature the Sub-Vastus MIS technique, along with the Triathlon® Knee System, the first knee system designed with women in mind! 5:00 PM CDT (22:00 UTC) at <http://www.or-live.com/triathlonknee/1459>

The next generation Stryker technologies such as X3TM Advanced Bearing Technology and Peri-Apatite™ press-fit technology will also be featured. See how the latest in Stryker Knee Technology has been designed to help provide better Motion³, Fit¹ and Wear².
