

## Minimally Invasive Primary Total Knee Replacement Surgery

Last Updated Sunday, 09 July 2006

Minimally Invasive Total Knee Replacement surgery, combined with a single radius knee design has demonstrated a higher level of patient satisfaction when compared to conventional techniques. Watch Peter Bonutti, MD, FACS perform this surgery live from Saint Anthony's Memorial Hospital in Effingham, Illinois on November 24, 2003 at 3:30 PM EST.
