

Practical Management: Common Medical Problems in Disabled Athletes

Last Updated Wednesday, 28 March 2007

Clinical Journal of Sport Medicine

Klenck, Chris MD, et al. - Disabled athletes face many challenges during training and competition. As the number of disabled athletes grows, sports medicine professionals must become proficient in dealing with this population. A functional classification system is used to classify disabled athletes into 1 of 6 categories: wheelchair athletes, amputees, athletes with cerebral palsy, visual impairment, intellectual impairment, and les autres
