

Can Epidural Anesthesia and Warfarin be Coadministered?

Last Updated Wednesday, 28 March 2007

Clinical Orthopedics and Related Research

Parvizi, Javad MD, et al. - We identified no other complications related to the coadministration of epidural anesthesia and warfarin. Although administration of epidural anesthesia in patients with coagulopathy can be detrimental, we recognized no cases of epidural hematoma causing neurologic symptoms in patients receiving controlled oral anticoagulation after total knee arthroplasty
