

The Chicago Cartilage Course

Last Updated Sunday, 09 July 2006

Orthopedics: The Chicago Cartilage Course, a comprehensive two-day course on cartilage repair, will be held starting Friday, May 7 at Rush University Medical Center, Chicago. The course will provide an update on the clinical management and surgical techniques for cartilage repair and is designed for orthopedic surgeons, sports medicine specialists, including fellows and residents, as well as physical therapists and athletic trainers. View live surgical webcast demonstrations beginning at 9:45 am CDT (14:45 UTC) featuring allograft meniscus transplantation, autologous chondrocyte implantation and osteochondral allograft, performed by Brian Cole, MD, director of the Rush Cartilage Restoration Center at Rush University Medical Center; Jack Farr, MD, director of the Cartilage Restoration Center of Indiana, Indiana University; Wayne Gersoff, MD, clinical assistant professor in the department of orthopedic surgery at the University of Colorado Health Sciences, Denver; and Riley Williams, MD, assistant professor in the department of orthopedic surgery at the Hospital for Special Surgery, New York.
