

## Transforaminal Lumbar Interbody Fusion Procedure

Last Updated Sunday, 09 July 2006

Spine Surgery: See Surgeons Perform A Transforaminal Lumbar Interbody Fusion Procedure in Live Webcast at 3:00 pm EST (19:00 UTC). Back pain may result from the degenerative changes that occur to the lumbar spine as people age or from a traumatic injury. It is a common reason why the average person may take a day off work or avoid physical activity. Surgeons at Robert Wood Johnson University Hospital are now performing an innovative spinal fusion to eliminate the debilitating discomfort for back pain sufferers. [View Webcast](#)
