

Triathlon Knee System

Last Updated Sunday, 09 July 2006

Orthopaedics: Stryker Orthopaedics will sponsor a live webcast of a total knee replacement procedure featuring the new Triathlon Knee System, direct from the Advances in Surgical Technology meeting in New York City on December 3, 2004 from 1:00 – 1:45PM EST. This webcast event is an opportunity for surgeons to gain a practical understanding of how the Triathlon Knee System was designed for natural knee motion. The efficiency, flexibility and orthonomic design of Triathlon's new instrumentation will be highlighted during the procedure. The total knee procedure will feature a cruciate retaining TKA performed by Kirby D. Hitt, MD, Scott & White Memorial Hospital, Temple, TX. Steven F. Harwin, MD, FACS, Beth Israel Medical Center, New York, NY, will moderate the procedure from the Advances in Surgical Technology meeting in NYC. The Triathlon Knee System incorporates features designed to provide benefits to surgeons, OR staff and patients.
