

## Vanguard Primary Total Knee with Microplasty Elite Instrumentation

Last Updated Sunday, 03 June 2007

On Thursday

June 14th at 7pm EDT Crittenton Hospital in Rochester Hills, Michigan will host a live surgical broadcast featuring Jeffrey H. DeClaire, MD, of the DeClaire Knee & Orthopaedic Institute and Keith Berend, MD. This broadcast will feature the Vanguard Primary Total Knee with Microplasty Elite Instrumentation.

Biomet's Microplasty® Minimally

Invasive Instrumentation reduces the incision from 6-8" to 3-4".

Additionally, this approach reduces the extent to which the surgeon must disrupt the soft tissue surrounding the knee.
