

## Gender Specific Knee Replacement - Bon Secours St. Francis Health System

Last Updated Friday, 16 November 2007

On Tuesday, November 27 at 5:00 pm EST, surgeons at Bon Secours St. Francis Health System in Greenville, South Carolina, will perform a gender specific knee replacement during a live internet broadcast.

### Bill

DeVault, MD, will perform the procedure, and Daniel E. Lee, MD, will moderate the hour-long webcast. A gender specific knee replacement is a special type of joint replacement that is shaped to match the specific contours of a woman's anatomy.
