

## Clinical Research Fellowship in Pediatric Orthopaedic Surgery - Orlando Florida

Last Updated Wednesday, 14 May 2008

This is a one-year fellowship position at the PGY-2 level, beginning July 1st 2008 and ending June 30th 2009. Fellows will participate in clinical research projects in pediatric orthopedic surgery.

Approximately half of the fellow's time will also be allocated to clinical care in clinics and surgery. This program is coordinated with the orthopedic residency program at Orlando Regional Healthcare in Orlando Florida, but it is not accredited as a year of training, nor does it guarantee a residency position upon completion. However, fellows will be given time and direction to improve their knowledge, skills and achievements in the feild of orthopedic surgery.
