

Finding Orthopaedic Knowledge Online

Last Updated Tuesday, 11 March 2008

Christian Veillette, M.D., M.Sc., FRCSC

Assistant Professor, University of Toronto

Shoulder & Elbow Reconstructive Surgery

University Health Network

Toronto, ON

The following presentation was given at the AAOS 2008 Electronic Skills Pavillion in San Francisco, California. It provides a strategy for searching the Internet to find useful high quality professional level information for orthopaedic surgeons.
