

Inbox Zero - Managing Email Overload for the Orthopaedic Surgeon

Last Updated Tuesday, 11 March 2008

Christian Veillette, M.D., M.Sc., FRCSC

Assistant Professor, University of Toronto

Shoulder & Elbow Reconstructive Surgery

University Health Network

Toronto, ON

The following presentation was given at the AAOS 2008 Electronic Skills Pavillion in San Francisco, California. It provides a strategy for handling email overload and being more efficient with processing your email not just checking your email.
