

## Interview Dates for U. of Hawaii Residency Program

Last Updated Thursday, 20 November 2008

Saturday, January 17th, 2009 has been chosen as our interview date for out of state students interested in our training program. If you are a superior MS IV, who is interested in a strong program, in a great location, save the date to interview with us.

We graduate resident with excellent operative skills, and high case log numbers. Our program is very well rounded, with residents assuming early operative responsibilities.

Sincerely, Robert E. Atkinson, M.D.

Program Director
