

2009 Johns Hopkins Orthopaedic Review Course

Last Updated Monday, 16 March 2009

Spend a Week With Us! June 8-12, 2009. The best week you will ever spend preparing for board exams!

This course is designed to provide an intense overview of clinical Orthopaedic surgery especially for residents intending to take Part 1 of the Orthopaedic Board Exam, or the Orthopaedic In-Training Examination (OITE). The sessions will be conducted by faculty in Orthopaedic Surgery at Johns Hopkins who have significant experience teaching in fellowship and residency programs.

Back by popular demand the schedule is the same as 2008, a one-week course, Monday through Friday, June 8-12, 2009. Tuition: \$695.

Includes Pathology, Basic Science, Spine, Hand, Foot/Ankle, Adult Reconstruction, Pediatric Orthopaedics, Sports Medicine Orthopaedics.

Features include mock exams every day, audience response system quizzes. You will be prepared for your exam after spending time in this course!
